C E R T I F I C A T E

2000 -2001

This to certify that the project report entited "APPLICATION OF HOSPITAL MANAGEMENT " Submitted to M.P. BHOJ OPEN UNIVERSITY, BHOPAL" For the award of BACHELOR OF COMPUTER APPLICATION (BCA) project work carried out by MISS REETA PAMNANI Rec. No. 97011104038 Respectively under my Guidance.

DATE : 25.9.2k

PLACE : BHOPAL

DR. RAJEEV SHRIVASTAVA

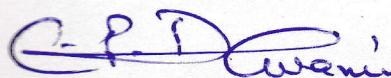

DEWANI HOSPITAL & REASEARCH CENTER

C E R T I F I C A T E 2000 -2001

This to certify that MISS REETA PAMNANI D/O L.D. PAMNANI student of B.C.A. Final Year from BHOJ UNIVERSITY, BHOPAL has compeleted a project on "HOSPITAL MANAGEMENT" with our hospital.

With Regards,
For DEWANI HOSPITAL & REASEARCH CENTER

C.P. DEWANI

Dr. C.P. DEWANI
M.B.B.S., M.S. (Surg.)
M.A.M.S. (Austria)
F.A.M.S. (Uro.) Vienna
Resident Urologist Ex.
Chief of the Govt. Hosp.
& Surgeon Nagadeh, Iran
Consultant Urogenital
Surgeon, Rugg. No. 943

Dewani Hospital & Research Centre
E-7, H-454, Arera Colony
Bhopal (M.P) 462 016 Tel: 660777/660888 564977

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

The person who deserves the most credit for this project is our Guide Dr. Rajeev Shrivastava. I am very grateful and thankful for his contribution and support.

I am very special thanks to DR C.P. DEWANI ,for his encouragement and support, I am thankful to each other the encouragement, support and smooth co-ordination throughout the development of this project, and all the other who have contributed to my project in my many ways

REETA PAMNANI

INTRODUCTION

System-introduction

Dewani Hospital & research centre is a leading private hospital in the city .It provides paid cure to the patients. There are number of well – qualified doctors in the hospital. Hospital has specialised section, which deal with different types of problems. Example-Surgery, Orthopedics, Cancer etc Each section has a ward in it. It contains beds and other facilities, so those patients can be admitted there for treatment.

When patient come to hospital for treatment, according to disease, respective department's doctor attends that patient. If the doctor feels that patient should be admitted in the hospital for further treatment, he sends that patient along with an admission slip to ward incharge. Ward incharge admits that patient in the appropriate ward. When patient's treatment is over and is discharged from the, ward incharge produces a bill for patient.
