SYNOPSIS ON

STUDENTS EDUCATION & CAREER GUIDE ON WEB

LANGUAGE - HTML, DHTML

SUBMITTED BY

SWATI BANG (993689084)

GUIDED BY

DR. RAJEEV SHRIVASTAV

Title of the Project -

Students Education and career guide on Web

Objective of the Project -

The concept of this project is to provide full fledged information about students career through net. This project gives the total information about various courses like Medical, Pharmacy, Engineering, Management, Colleges, Computer Institute, Polytechnic, Coaching Institutes, Universities. In this project following information like eligibility, Seats available, Duration of courses, Feestructure, Scope all are included.

Input of the Project -

Input is only required while one has queries. In this Project there is a form for queries.

Output of the Project-

This website gives the information to students about various courses, Universities, Tutors and many more.

Process Logic -

In this Project Students are directly log on to the site of listed colleges. If you want to know the details of particulars college then double click and go into the information regarding that particulars college. You can also give your view & suggestion. Form is also available on the site so that you can submit your queries.

Limitations -

It give the information about Indore University "Devi Ahiliya University" and information about other colleges and tution of Indore only.

Tools-

The system is developed by HTML, DHTML and CGI. Moreover the project has been explained by system analysis and design. The system is operating at a high level of efficiency. The system solve the problem it was intended to solve.

This project is not for any industry or client but it is sure that this site will be helpful to all the student who are career conscious and could not get the proper guidelines easily about the courses in Indore city.

Scope of Future Application

If we increase the information of all universities of whole M.P. or even for whole India then this website can prove to be very helpful for all career oriented students.

98270-57480

2. Father's Name : Sri D.K. Srivastav

3. Age : 35 Years
(D.O.B. 10.12.1964)

4. Qualifications :

Ph.D.	Applied Mathematics (Engg)
M.Sc.(Applied)	Mathematics & Computer Prog.
B.Sc.	Physics, Chemistry, Mathematics

5. Exposure to teaching :

4 years with MACT as Lecturer (Computer Sc & Engg)

2 years with Women Plytechnic Computer Sci (Part time)

2 years with SV Polytechnic (Part time)

2 years as Expert Faculty with IGNOU (MCA)

Taught various courses at Academy of Admin Bhopal.

6. Research Publications & Seminars :

23 research papers in the field of Applied Mathematics, Computer Science (AI, Data Communication) and allied subject on national and International level.

7. Employment Record :

Currently working with MPSIDC Bhopal as Assistant Manager (I/C Computer Centre) Since april 1993.

Worked with MACT, Bhopal as Lecturer, Systems Engineer, Programmer from 1988 to April 1993 in Electronics Engg. Deptt.

Introduction

The project is on "**Students career on net**" which is being developed in HTML, DHTML, CGI. The basic concept is to provide full fledged information to students of there career. The students passed out 10+2 or bachelor degree generally remains in the choosy position for selecting the particular field as per the interest stated.Indore city has a well known educational infrastructure. The DAVV and various other institutes conducts a lot of different courses even than students faces many problems about the selection of particular field, because of lack of information or incomplete information about different courses. Keeping in mind the problems which students generally faces, we have tried to help the students for making decision regarding their career.

The project provides the following information about various courses which are helpful for the students in making decision.

- The Eligibility.
- Seats Available.
- Duration of Courses.
- Fee Structure.
-The Scope.

Introduction to languages:

HTML:

The language used to devolop web pages called HTML. HTML is a language interpreted by a browser. Web pages are also called HTML document. HTML is asset of special codes that can be embedded in text to add formatting and linking information. HTML is specified as text in an HTML document.

HTML TAGS:

Tags are instruction that are embedded directly into the text of the document. HTML tag is a signal to a browser that it should do something other than just throw the text up on the screen.

HTML tags are of two types:

(1) Paired Tags:- A tag is said to be paired tag if it has one opening tag and another is closing tag. The opening tag activates the effect and closing tag turns the effect off.

Example:- <B> INTERNET </B>

This tag will put the word "INTERNET" in bold letters.

(2) Singular Tag:- A tag is said to be singular tag or stand alone tag if it does not require a comparision tag.

EX:-
 This tag will insert a line break.

Features of HTML:

- **Hyperlinks:-** A link from one text document to another.

EX:- <A HREF = "abc.HTML">LINK</A>

- **Images:-**User can invoke images to web page by following text.

EX:- <IMG SRC = "image.jpg">

- **Tables:-** Table is a 2D-Matrix consisting of rows and columns on a web page. tables are created using following tags.

EX:-<TABLE><TR><TD>Data</TD></TR></TABLE>

- **Frames:-**It is powerful feature that enables a web page to be broken into different unique section that , although related operate independently of each other.

CGI:

CGI is a specification defined by the WWW consortium(W3C), defining how a program interacts with the hyper text transfer protocol (HTTP) server. CGI provides the middle ware between WWW servers and external database and information sources. CGI application perform specific information processing retrieval and formatting task on behalf of WWW servers.

Programming Language:- CGI programs has been developed in C, C++, VB Script, Perl, TCL, REXX, Python, Icon, Apple Script, Unix Shell Script and even DOS based file.

Why Perl For CGI:- A CGI program can be written in any of the above mentioned languages, but perl is specially suited for this because perl programs are easy to learn and write. Perl is a scripting language which means it does not have to be compile. Perl has great text processing capabilities that is why it was a natural choice

The first CGI sample program provided by NCSA.

Features of Project

- Information about all the colleges which are affiliated to DAVV or autonomous are available.
- Information about all the fields whether medical, pharmaceutical, Engineering, Hi-Tech courses etc are available.
- Information about various computer and coaching institutes with courses and fee structure are available.
- Information is available college wise and course wise.
- Student can also give their view and suggestions.
- Lastly enquiry form is also available on the site so that you can submit your queries.

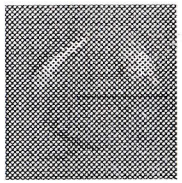
Students Education & Career Guide

|your view| |contact us| |About Site|



Hi!! This site is all about the colleges

which are autonomous or affiliated to D.A.V.V(Indore).This also include entire

information about the courses run by these Institutes.

Presently this is in the process of making some changes.

Still I am sure that this site will help you.

Thanks.

DEVI AHILIYA VISHVA VIDHYALAYA

Devi Ahilya University was established in 1964 at Indore, the largest industrial and business hub of central India. The university is a state university upported both by the Madhya Pradesh Government and the university grants commission.

evi Ahiliya University is incorporated in the Commonwealth year book. The university grant commission has selected Devi Ahiliya University as one of he top ten national universities of India. The government of Madhya pradesh has declared Devi Ahiliya University as a model University. It has been estowed with "THE CENTER FOR EXCELLENCE" award by the government of Madhya Pradesh.

he University has more than 21 teaching departments imparting education in frontline areas of physical & biological sciences, Engineering and technol-gy, Management and the Humanities. There are more than one hundred and seventy-five faculty members actively involved in multidisciplinary pro-rams.

he university serves approximately 10,000 students at 2 anchor campuses in central Indore and Southeast Indore. Devi Ahiliya University provides ghest quality educational experiences and opportunities to its students. The university also organizes acadmic,cultural,sports & social activities through ut Indore. With a commitment to providing quality education, Devi Ahiliya University places major emphasis on integrating acadmic programs with ctive learning , a key component for becoming a university for next century.

The Institute

Indore is the largest city of Madhya Pradesh and is widely acclaimed as the educational, industrial and commercial capital of Madhya Pradesh. Devi Ahiliya Vishwavidhyalaya,Indore is seat of learning in this region. It drives its name from Devi Ahiliya Bhai Holkar, a famous queen of Holkar Dynasty.

M.B.Khalsa college has been established by the minority Sikh Community of Indore in 1990 to promote technological & educational excellence in advanced areas such as those of Computer Science & Electronics. It has pioneered in the field of Science education by introducing courses of computer science(Hons.) and Electronics (Hons.) at B.Sc level. This fulfills the long standing demand for promoting the vocational & professional need through computers in the field of industry & science.

The college has also introduced Computer Applications as a subject at B.Com level since 1945-95 session. During the year 1999-2000,the college has introduced vocational courses at B.Com level such as

(1) Computer Applications,(2) Tax Procedure and looking at the huge demand for computer professional and experts in the field of trade, commerce and industry within the country and abroad.

Management as well as computer education and training are the most significant components of Human Resources Development with great potential for contributing to the national economy and improving the quality of the people. With the globalization of our economy and the policy of liberalization, the demand for professionally competent management personal with expertise in computer is going to increase at galloping speed. The solution to this paradox lies in providing facilities for management, computer and financial education and training which alone can develop professionally competent young man suitable for buisness,industry and public administration.

The M.B.Khalsa college therefore has decided to make its humble contribution to fulfill this demand and hence has stopped into Post Graduation Programmer in the field of Management, Computer Science and Finance from the session 1999-2000.Like M.Sc, M.C.M, M.I.B, M.F.A, M.Com, B.C.A and many more to come.

CONCLUSION

The system developed using HTML and DHTML fully meets the objectives of system for which it has been developed. The system has reached a steady state where all the bugs have been eliminated. The system is operating at a high level of efficiency. The system solve the problem it was intended to solve. I am sure that this site will be helpful to all the students who are career conscious and could not get the proper guidance easily about the courses in Indore city. Now user can easily download the information and data from the site.

Finally it can be concluded that the system has accomplished what it was intended to accomplish within its time and cost budget.
